Real Estate.

FURNACE FOR RENT.

The George's Creek Coal and Iron Company will receive proposals until the 1st of November next, to Rent their FURNACE, at Lonaconing, situated in the village of the same name, in Allegany County, Maryland.

This Furnace was the first one built in the United States for the manufacture of Iron with coke, and as Mr Overman, in his Treatise on Iron Making, justly says, "has been the model for all that have succeeded it."

Fifty feet from the hearth up, and with 14 feet bosh, it is capable of turning out from 70 to 100 tons per week, according to the kind of metal made.

It has all the accessories necessary: a steam engine and blowing cylinder, capable of supplying 8000 cubic feet of air per minute; three water-powers which can be fed with hot or cold air; hot-air furnaces, &c. &c. and a spacious and most convenient cast-house.

Some repairs will be necessary, which the tenant would be expected to be put in at his own cost.

The COAL, of first quality for making Coke, is immediately above the Furnace, and connected with it by an inclined plane.

The ORE MINES are a few hundred yards off. Limestone is on the same ground, not much further. These ores are good for 50 per cent, grey iron of first quality; and in addition, in various places of the proprietors' estate, and adjoining it, are deposits of Hematatis, much richer: the right of mining which, on the lands of the Company, will be conceded without royalty.

With all these resources, iron has been and can be made there at an unusually low price, and of superior quality.

The Furnace is 9 miles from the Baltimore & Ohio Railroad, at Piedmont, and is connected by a Railroad in regular operation; so that there is every facility for speedy and economical freights to either an Eastern or Western market.

There will be ample accommodation for hands.

To a suitable tenant the terms would be made advantageous. Proposals to be endorsed "Proposals for the Lonaconing Furnace," and addressed to A. H. STUMP, President, box 229, Baltimore Post Office. 5 tnov1 oct10

FOR SALE.

The subscriber has several first class HOUSES, which will no doubt suit any gentleman or lady who wishes to purchase, on the most favorable terms of payment, and possession can be had so on. One on Boylston, between Tremont and Carver streets, 2 on Somerset street, 1 on Beacon street, 1 on Ashburton place, 1 on Bowdoin street, and several other Houses of less price, which have never been offered for sale, and of an excellent character.

Also to LET, a STORE suitable for a shoe or fancy leather corner of Cross and North (formerly Ann street), considered as good if not the best stand in the street. Apply at 4 Wilson's lane, to A. B. HOGINS. 5 isiwkcostoct sep13

CITY TREASURER'S OFFICE. Boston, Sept. 1 1853. Notice is hereby given, that any Scrip or Notes of the City Loan, or Notes of the City given for the Water Works, coming due on or before April 20, 1855, will be anticipated on presentation at this office. FREDERIC U. TRACY, City Treasurer. sept12 tf

DISSOLUTION OF COPARTNERSHIP.

THE copartnership heretofore existing between Charles W. Little and John Osborn as general partners, and Kendall Osborn as special partner, under the firm of LITTLE & OSBORN, is this day dissolved. The business of the firm will be settled by John Osborn, who alone is authorized to use the name of the firm in liquidation.

The Hide and Leather business will be continued at No 76 North street, by John Osborn as general partner, and Kendall Osborn as special partner, under the name of JOHN OSBORN & CO. This firm will also retain the same cash capital and facilities as were employed in the late firm.

CRANE'S SELF-ACTING
CHAIN STOPPERS.

NEW YORK, Oct. 25, 1852.

MR. J. E. CRANE, Lowell, Mass.—Dear Sir: The "Flying Fish" having been furnished with your Self-Acting Patent Chain Stoppers, previous to my sailing on my last voyage, enables me to say that they work admirably, answering not only the purpose for which they were intended, in securing every link of the chain in heaving in, as well as preventing the chain from running out when surging on the windlass, but also in stoppering the chain when coming to an anchor. I consider this a very useful invention, and would recommend it to all interested in shipping.

Yours truly, EDW. C. NICKELS.

Orders directed to J. E. CRANE, Lowell; or to WHITON, TRAIN & CO., Boston, will receive prompt attention. 1y ap5

To Stove & Lantern Manufacturers.

MICA, or SHEET ISINGLASS, of all sizes, of superior quality for Stove Doors, Furnace Lights, Signal, Battle, Engine, Common, and other Lanterns, &c. &c.

The above article is superior to anything ever used for the above purposes, on account of not breaking or burning, but standing the most intense heat. Also, Safety Lanterns of various sizes, a very superior article, warranted not to break by falling, and are decidedly the safest, cheapest, and best of the kind in use. Also, Safety Lamps, an excellent article, by the dozen, single, or in any quantity. Constantly for sale on the most reasonable terms, at No. 21 Union street (up stairs), Boston, Mass.

GEORGE H. HUGGLES.

N.B.—The Mica or Isinglass will be cut to any reasonable size, if requested. All orders for the article promptly attended to and thankfully received. 5 TuTh&Sly jel8
