NEW DESIGNS ON COINS

Changes to Be Made iu All the Silver Money Now in Use.

ARTISTS ASKED TO COMPETE FOR $500 PRIZES.

Both Sides of the Dollar and the Obverse Side of the Half, Quarter and Dime to Be Changed—The Motto "In God We Trust" the Only Thing That Must Be Retained in the New Designs—History of the Motto.

WASHINGTON, D. C., April 6.—The director of the mint, Mr. Edward O. Leech, having been asked to-day whether he intended to take any action under the recent act of congress providing for new designs of our coins, said: "Yes, I intend to take immediate action. I have prepared a circular letter to artists, asking them to submit designs for both the obverse and reverse sides of the standard silver dollar, and separating designs for the obverse or face of the half dollar, quarter dollar and dime. The reverse of the subsidiary silver coins will not be changed as the designs of our gold coins are generally satisfactory. I shall not recommend any change in them for the present at least. The mandatory coinage of the silver dollar ceases on July 1. After that date we will coin the trade dollar bullion into silver dollars at our leisure. This will give an opportunity to prepare dies according to the new designs without interfering with the present mandatory coinage. Congress has given us an appropriation of $150,000 available July 1 for the recoinage of the subsidiary silver coins in the treasury that is to pay the loss of metal incident to recoinage. We think that we will be able to recoin from $2,000,000 to $3,000,000 of the unavailable assets of $20,000,000 in subsidiary coin now in the treasury with this appropriation. A reward of $500 will be paid for each design accepted, five in all. The motto 'In God We Trust' will be preserved on the coins. This motto has a curious history. From the foundation of the government until 1864 no religious motto ever appeared upon our coins. In November, 1861, a clergyman addressed a letter to Mr. Chase, the secretary of the treasury, suggesting a recognition of the Deity on the coins. This letter was referred to the director, with a favorable endorsement by the secretary, but it was found that the mottoes could not be changed without authority of law. In December in 1863 the director submitted plans for new 3 cent, 2 cent and 1 cent pieces on which it was proposed that one of the following mottoes be inserted: 'Our Country, Our God;' 'God, Our Trust.' Mr. Chase suggested, in lieu of these mottoes, the one, 'In God We Trust.' It was upon the 2 cent piece authorized April 22, 1864 (since abolished), that the motto 'In God We Trust' first appeared. It is now upon all the large coins. The designs for the new coins are to be submitted by June.

CITY BREVITIES.

Dr. A. W. Traverse has returned from California.

Gustav Bach has been appointed orchestral leader for the Saengerfest concerts.

The First Light Battery held its semi-annual business meeting last evening.

W. H. McElroy denies the report that he is a candidate for the office of treasurer of the town of Lake.

The trial of Fred Doering charged with illegitimate parentage, was begun in the circuit court yesterday.

Joseph Czerwinski, a brother of the comptroller, has been appointed deputy superintendent of the poor.

A lamp explosion last night set fire to John Larkowski's house 676 Mitchell street, and caused a damage of $180.

Miss Florence Young, of Buffalo, N. Y., and William O. Heise, of Milwaukee, were married March 31, at Buffalo.

The will of Charles Auguspurger, filed for probate yesterday, leaves an estate valued at $3,600 to his wife and children.

The Emanu-El congregation has contributed $25 to the Alliance Israelite Universelle, the great charitable institution at Paris.

Julius Kahn, the Grand avenue jeweler, was married to Miss Anna Levy, of Iron Mountain, Mich., Sunday, at the home of the bride.

Mrs. Augusta Schneider, a former inmate of the asylum at Wauwatosa, yesterday became insane again and was sent back to the institution.

The father of Emma Halversen, who was charged with abandoning her child, came here yesterday and furnished bail for her appearance as a witness in the case against Mrs. Fox.

The park commissioners will meet to-morrow, and will probably elect a new secretary. C. K. Lush and Emil Rahn are the applicants for the position, and it looks as if Mr. Lush will be elected.

A petition was circulated yesterday, asking the legislature to pass bill No. 481 A., to regulate benevolent and fraternal orders and societies providing insurance on the assessment plan. The petition was extensively signed.

Judge Jenkins appointed J. D. Walter receiver for the property in dispute in the suit of F. W. Stanley against James Carey and others, yesterday. The suit is to foreclose a mortgage on a Green Lake county cranberry marsh.

The Masonic Relief lodge held a meeting yesterday at which all lodges of the state were represented and passed appropriate resolutions regarding the death of Owen Pritchard, chairman of the Examining board of the order.

Milwaukee Juvenile Temple No. 91, I. O. G. T., will give an entertainment at Germania hall, April 18, consisting of the representation of "Mother Goose, and her Temperance Family," and recitations, songs and instrumental music.

Judge Jenkins yesterday dismissed the writ of habeas corpus in the case of Morris M. Zimmerman, and the latter will be taken to Grand Rapids to stand trial on the charge of stealing the steamer Dewar. His bail has been fixed at $2,000.

TO EUROPE.

Every year the tide of travel to Europe increases as the people of our young republic find more time for pleasure and education that comes only with travel. One of the first questions put to an American in Europe is in regard to Niagara Falls. It was Byron who, when an American was introduced to him, began to ask eagerly about Niagara Falls, and being told that he had never seen them, turned on his heel with disgust at the idea of an American visiting Europe without having seen that crowning glory of his own land. Americans, when about to visit Europe, should go via Niagara Falls in order to see this masterpiece of Nature's work, and be able to speak from personal knowledge of its wonders. Steamship tickets via all ocean lines can be secured in conjunction with Michigan Central tickets, via Niagara Falls to New York, Boston, or any of the Eastern seaports. Ask your nearest agent. Call on or address L. L. Cauffy, Wisconsin Passenger Agent, 392 Broadway, Milwaukee.

HOW TO MAKE MONEY.

I read what Mr. Bell said about making $80 per month. I also sent to the Standard Silver Ware Co., P. O. box 5308, Boston, Mass., and received a fine case of sample. I took orders the first day that paid me $10 profit; made $40 the first week; at the end of one month I had $115 clear profit. Any one can get circulars and agency by writing the above firm. I hope others may profit by my experience. Yours truly,
W. F. WILLIAMS.

HICKLER HAS RESIGNED.

The Editor of The Volkszeitung Disgusted With the Socialists.

Simon Hickler, the energetic young editor of The Volkszeitung, the German organ of the Socialists in this city, has resigned his position and will leave for Chicago in a few days. He is disgusted with the treatment he has received at the hands of his local brethren, for whom he has labored ever since he dropped into the chair that was vacated by Paul Grottkau. Shortly before the latter went to Chicago, where he now conducts a photograph gallery, he said: "The Socialists of Milwaukee are a set of ungrateful fellows," and Mr. Hickler is now disposed to think so too. He said yesterday: "I would be nothing short of a fool if I were to continue here. Without presumption, I can claim to have aided much in benefiting the laboring class in Milwaukee. The great mass of them recognize this and are thankful. But I am tired of working for nothing, and being constantly misunderstood by a lot of ignorant sansculottes, the so-called leaders. They are not Socialists. Though they advocate the abolition of class power, they are inconsistent as soon as it comes to themselves. They want to be on top and rule, frequently not knowing what is good and necessary for the general welfare. Rather than continue under the present circumstances I would rather go to work for a capitalistic paper; there I know that I have got to do certain things. When that is done my responsibility ceases, and I am always well treated. I shall go back to Chicago, where my work is appreciated."

The Volkszeitung, under Mr. Hichler's management during the past two years, has become quite an influential sheet and reached circles where it was not liked before he took hold of it. The organization of German tradesmen, particularly that of the carpenters, were effected principally through his efforts, and the latter, it is said, are urging Mr. Hickler to reconsider his intention to leave the city. Gustav Rahn and two other writers on the paper have also resigned their positions. Robert Schilling believes this will prove a death blow to the paper.

THE G. A. R. ANNIVERSARY.

Milwaukee Posts Observe the Day by Campfires at Their Halls.

The twenty-fifth anniversary of the birth of the Grand Army of the Republic was observed by the veterans of Milwaukee last night. At Robert Chivas post hall a large audience assembled to participate in the exercises. Post Department Commander Weissert presided, Sheriff M. P. Walsh, commander of the post, being sick. The exercises were opened by the reading of Commander-in-Chief Veazey's order for the observance, followed by remarks by Comrade Weissert, prayer by the Rev. Geo. H. Ide, and music by Mrs. S. A. Lewis. The history of the Grand Army was then given by Comrade Weissert, substantially as has been given in The Sentinel. "Columbia the Gem of the Ocean" was sung with special excellence by Miss Flora Davis, and Comrade Pier spoke of the Sons of Veterans twenty-five years hence. W. J. Kershaw, of C. K. Pier camp Sons of Veterans, eulogized the Grand Army and spoke feelingly of it as its ranks were being thinned by death. The Misses Creigh, one of whom is a dainty little Miss of 6 years, and the other a few years older, gave highly appreciated recitations, as did also Master Lehfeld. The Prengle family, Comrade Burns and Mrs. Jackson shared in furnishing music, and the exercises closed by all singing "Marching Through Georgia."

At Pabst Guard armory Rank and File post enjoyed a somewhat similar celebration. The order was read by Adjt. Henry Fischer; Commander Bleuel gave a welcoming address to those present, Adjt. Fischer read the history, Comrade Wright responded to the toast, "The Grand Army," and the toast, "Departed Comrades," was responded to by silent meditation by all. The singing was by the entire assemblage and embraced many war songs. The exercises closed with informal short speeches by various comrades, and the smoking of corncob pipes sent for the occasion by Comrade Schubert, of St. Louis.

Demand for More School Room.

The aldermen of the Sixth ward have applied to the Common council for an appropriation of $18,000 for the building of an addition to one of the Sixth ward school buildings. To show that there is a demand for the addition they produce the following figures: The number of pupils in two rooms which have been rented for school purposes in the Sixth ward there are 107 pupils. Seventy-two pupils can be accommodated at the different schools only for half a day, and twenty-four pupils could not get admission to school at all.

Unveiling Ceremonies Postponed.

The unveiling ceremonies at the Bergh memorial fountain have been postponed by the Humane society until April 29, owing to the illness of Supt. Whitehead, who was able to sit at table with his family for the first time yesterday.

Man the Life Boat!

Ere your wave-battered, dismasted hulk is dashed to pieces upon that cruel reef by the resistless waves. Save, too, a shattered physique, fast yielding to the attacks of disease with that imperial renovator of health and strength, Hostetter's Stomach Bitters. The range of its powers is wide, its action prompt and thorough, its use always safe. Chronic indigestion, debility and nervousness, malarial complaints, rheumatism, neuralgia, inactivity of the kidneys and bladder, and that physicial decay without apparent cause, which is often premature, are speedily checked and ultimately cured by this medicine o many uses and sure results. Sleep, appetite and vigor are improved by this helpful tonic and regulator, the use of which likewise tends to remedy undue leanness.

We are a patient people—the ox is nowhere in comparison.

We buy lamp-chimneys by the dozen; they go on snapping and popping and flying in pieces; and we go on buying the very same chimneys year after year.

Our dealer is willing to sell us a chimney a week for every lamp we burn—a hundred or more a year—and we plow for him, pay him for goading us.

Macbeth's "pearl top" and "pearl glass" do not break from heat; they are made of tough glass.

As likely as not our dealer would rather his chimneys would break; "it's good for the business," says he. He buys the brittlest ones he can get.

"What are you going to do about it?"

Pr'ythee, friend,
Pour out the pack of matter to mine ear.
—SHAKESPEARE.

Some men talk in whispers—speak "as gently as any sucking dove", to again quote Avon's Bard; others have voices loud enough to disturb the little fishes at the bottom of the sea—enact "a part to tear a cat in, to make all split." Some men are confidential; some are outspoken.

Now *our* to-day's communication to *you* isn't in confidence—were it so, we shouldn't resort to printers' ink to make it. No; "the pack of matter" is public property, and is simply this: BOTH OUR CLOTHING AND OUR FURNISHINGS STOCK IS COMPLETE IN EVERY DETAIL!

A few words about the latter: We sell more goods than do other stores hereabouts because we sell best goods cheapest; we sell best goods cheapest because we buy cheapest; we buy cheapest because we buy in wholesale quantities, and the others don't.

Seneca said: "Men trust rather their eyes than their ears." Use *your* eyes, then, Millwaukeeans—and use them well. See our windows, which mirror the highest expressions of taste. There's art in everything displayed there—art and solid serviceableness.

GIMBEL BROTHERS.

Milwaukee, Tuesday, April 7, 1891.
POINTER No. 1187: One cloud is enough to eclipse the sun.

The scene shifts daily.

The panorama of fashion or whatever you choose to call it, goes on ever changing, every shift bringing something more diaphanous than the last and throwing about delight and charm that arrests every fancy.

The ginghams.

Top-most sorts, more a silk than a gingham. $1.25, and 85c. Did you ever know gingham to sell at $1.25 or at 85c? We don't think that there has ever come to Milwaukee such gingham extravagance before. They are even more wonderful than the price suggests.

More Scotch Zephyrs coming, with merry tunes and grouping about the counter. There's no missing the Scotch wit in ginghams. The style is right, the colors are fast, the thread is even, and the fabric's as soft as thistle down.

Whytlaw's and Anderson's. The world of cotton takes its ginghams hints from them. Hundreds of pieces of either 40c and 25c a yard.

Fancy sort with heavy cord and broche figures, all of the highest cotton-wash art and all the kinks of color play that fashion has hinted at. You can rely on the Scotch, to pipe the style to the right pitch—45 and 55c a yard.

All the youngsters fitted with proper Jackets for spring.

$2.45 and 3.50 ones are attractive-priced enough to sharpen the wits of wanters so that there shall be no fraud in price imposed upon you anywhere.

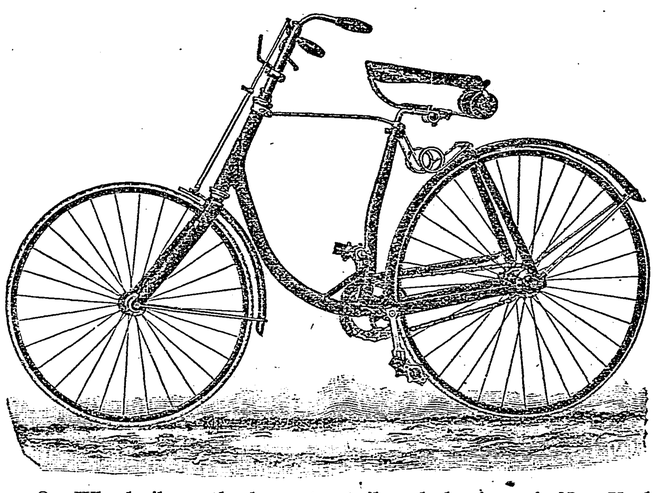
and read all about what we have to disclose. In the meantime read the following and learn which are the most popular wheels in the chief cycling centers of America. In cities where everyone rides a bicycle, the best makes are the ones used.



Q. Who built up the largest retail cycle business in New York City, or in fact the largest in the United States?

A. George R. Bidwell, Fifty-ninth street, and the principal make of wheel he handles is the WARWICK PERFECTION.

Q. Who is it that sells more wheels than any other dealer in Chicago?

A. The John Wilkinson Company; they sell the ROVER only. It is the original and best known of all safety bicycles.

Q. Who has the largest and best equipped bicycle factory in the world?

A. Singer & Co., of Coventry, Eng.

N. B.—During my two months' visit in Europe last summer, I took occasion to visit all the cycle factories there, and having personally inspected all the important factories in this country, I pronounce the above to be a fact. Singer & Co. employ over 800 men. P. H. SERCOMBE.

Q. Who originated the most successful device known for giving health and comfort to cycle riders?

A. Thos. B. Jeffery, of Chicago, who patented the SPRING FRAME used on the Light Rambler, the Special Ladies' Rambler, and the Ideal Rambler for boys and girls.

Q. What bicycle makers in combination with their Western agents have more capital invested than all of the other 25 cycle manufacturers in America combined?

A. Wm. Read & Sons, of Boston, manufacturers of the New Mail Safety; capital, $2,000,000. Hibbard, Spencer, Bartlett & Co., their Western agents, of Chicago, capital $3,000,000; total $5,000,000.

Q. What high grade safety is sold at so low a price that all competitors swore last year that the makers would lose money.

A. The Lovell Diamond, price $85. It is strictly first-class and has the best of workmanship. The manufacturers cannot possibly supply the demand.

Q. Who are the largest general bicycle dealers in America?

A. Rouse, Hazard & Co., of Peoria, Ill., who make a specialty of handling the American Rambler.

Q. Who is the largest retailer of cycles in the city of Buffalo, N. Y.?

A. F. J. Doll & Co. They make a specialty of high grade English wheels.

Q. Who invented and patented the first spring fork in America that prevented side motion in the steering wheel?

A. F. H. Bolte, of Milwaukee, who in connection with P. H. Sercombe will shortly form a stock company to be called the SERCOMBE & BOLTE MF'G CO., for the manufacture of Safety Bicycles, Spring Forks, Cushioned Tires, Bicycle Saddles, etc.

Q. What Milwaukee cycle dealer has the entire control of Wisconsin and Northern Michigan for all the above lines of wheels and sundries?

A.—

P. H. SERCOMBE'S BICYCLE AGENCY,

94 WISCONSIN ST., MILWAUKEE, WIS.,

and every article sold is fully guaranteed.

N. B.—It is a common thing for small dealers who handle only one or two makes to indulge in a lot of senseless talk about drop forgings, steel tubing, ball bearings, etc. The fact is, these are the only materials entering in any way into the construction of any of the high grade wheels on our entire list.

Remember, we have control of the entire business of all these companies for the State of Wisconsin and Northern Michigan. There is no other dealer in the State who handles more than a single county.
