### CLOCKS.

100 Mantle Clocks on hand and for sale on reasonable terms.  
The above Lamp, or Chandelier, take the mode to caution the public against the use of certain articles, which have been recently introduced into the market, constructed upon the same principle, and intended as an invasion of their exclusive privilege. They have instituted a suit in the Circuit Court of the United States, against JOSIAH DANFORTH, of Middletown, the Assignee of PLATT'S UNION LAMP, so called, and others, for making and vending that Lamp. They consider that as a plain and palpable violation of their rights. It is known by this peculiarity, that the reflector for the oil, is generally made in the form of fishes. Their duty to themselves, and to those to whom they have granted privileges under their patent, requires that their rights, conferred by the United States, should be protected; and they hereby advertise, who make, sell, or use their Hanging Lamp, without authority from them, under whatever disguise, that legal measures will be adopted for redress.

They have instituted a suit in the Circuit Court of the United States, against JOSIAH DANFORTH, of Middletown, the Assignee of PLATT'S UNION LAMP, so called, and others, for making and vending that Lamp. They consider that as a plain and palpable violation of their rights. It is known by this peculiarity, that the reflector for the oil, is generally made in the form of fishes. Their duty to themselves, and to those to whom they have granted privileges under their patent, requires that their rights, conferred by the United States, should be protected; and they hereby advertise, who make, sell, or use their Hanging Lamp, without authority from them, under whatever disguise, that legal measures will be adopted for redress.
