

CONNECTICUT COURANT.

HARTFORD, MARCH 10.

The period of the annual election is at hand, and it behooves the electors to give the subject seasonable attention. For the first time, our senators will be chosen by districts.

The United States Senate have rejected the nomination of Henry Lee, as Consul General for the States of Barbary.

Elisha Stearns Esq. is nominated as candidate for the Senate from District No. 20.

The Hon. Roger Huntington, of Norwich, is nominated as a Senatorial Candidate from District No. 8; and Henry M. Waite, Esq. of Lyme, for District No. 9.

We have been requested to publish the name of WILLIAM G. WILLIAMS, Esq., of New-Hartford, as a candidate for the Senate, from District No. 15.

At the Anti-masonic Convention of Delegates from the towns composing the 3d Senatorial District, holden at Simsbury on the 24th ult. the Hon. Timothy Pitkin, was nominated as a candidate for the Senate from that district.

We publish this week the Report of the Committee of the House of Representatives on the subject of Sunday Mail. The minority of the Committee who dissented from this Report have submitted their views, which we shall give in our next.

The Rev. Charles A. Boardman has been dismissed from the pastoral charge of the Church and Society in New Preston. He has accepted a call to the third Congregational Society in New Haven, and is to be installed on the 24th inst.

The following paragraph furnishes a practical illustration of the importance of punctuality in renewing policies of insurance.

On the 1st inst. the house of Mrs. George Smith, on the corner of Front and Chestnut streets, in Wilmington, North Carolina, was burnt down. The building had been insured at the Aetna office, Hartford, and the policy had expired only on the day before the fire!

Connecticut River is now free from ice, and the Steam Boats have commenced running between this place and New York.

Senex is received. There are objections to the insertion of his communication which it is difficult to state publicly, but which we think will on reflection readily suggest themselves to the writer.

Table with 2 columns: Item and Price. Includes FLOUR, GRAIN, and other commodities with their respective prices.

COMMUNICATION.

News. Goodwins. Having seen in some of the Newspapers an account of the arrival of Cows kept by a gentleman in Massachusetts, to be 25 dollars a year each, the Widow Deane, of Wethersfield, Connecticut, determined to keep an account of the arrival of her three Cows for one year, ending March 15, 1830.

Table with 2 columns: Item and Price. Lists various types of cows and their prices.

The expense of keeping the Cows is about 30 dollars a year each, certainly not exceeding that sum, making a profit of 100 dollars for one year.

Certificates to accompany Casks, &c., containing Distilled Spirits, Wine, and Tea. The following extract from the act of Congress entitled, 'An Act to regulate the Collection of Duties on Imports and Tonnage,' is published for the benefit of whom it may concern.

Sec 43. And if any casks, chests, vessels or cases, containing distilled spirits, wines or teas, which by the foregoing provisions ought to be marked and accompanied with certificates, shall be found in the possession of any person unaccompanied with such marks and certificates, it shall be presumptive evidence that the same are liable to forfeiture; and it shall be lawful for any officer of the customs or of inspection to

seize them as forfeited; and if upon the trial in consequence of such seizure, the owner or claimant of the spirits, wines or teas seized, shall not prove that the same were imported into the United States according to law, and the duties thereon paid or secured, they shall be adjudged to be forfeited.

We have received a letter from a very respectable and influential gentleman of the nineteenth Senatorial District, stating that many Electors of that District, requested the nomination in the Gazette, of JOSIAH GRIFPIN, Esq. as Senator.

Sunday Mail. In the Senate on the 9th inst. Mr. FRANKLIN, of New Jersey, offered the following preamble and resolution, which were taken up the following day, and on motion of Mr. F. made the special order of the day for Wednesday the 24th inst.

Resolved, That the Committee on the Post Office and Post Roads be instructed to report a bill repealing so much of the act on the regulation of Post Offices, as requires the delivery of letters, packets, and papers on the Sabbath, and further, to prohibit the transportation of the mail on that day.

BY HIS EXCELLENCY GIDEON TOMLINSON, Governor of the State of Connecticut, A PROCLAMATION.

When we fully review and impartially scrutinize our sins, we are constrained to acknowledge that we have been unworthy of the Divine Graces, which we have so abundantly received, and that we have been unworthy of the Divine Graces, which we have so abundantly received, and that we have been unworthy of the Divine Graces, which we have so abundantly received.

To the intent, therefore, that we may, with one accord, simultaneously manifest a realizing and devout sense of our accountability to Jehovah, and our entire dependence on His Providence and Grace, I do hereby appoint Friday, the ninth day of April next, to be observed, throughout this State, as a day of Fasting, Humiliation and Prayer.

It will also be our duty, on that occasion, to remember, with lively gratitude and devout aspirations of praise, our innumerable and undeserved blessings and enjoyments, and fervently to pray for the continuance of them, and for the prosperity of our State, to prosper in the interests of our State, to prosper in the interests of our State, to prosper in the interests of our State.

It will also be our duty, on that occasion, to remember, with lively gratitude and devout aspirations of praise, our innumerable and undeserved blessings and enjoyments, and fervently to pray for the continuance of them, and for the prosperity of our State, to prosper in the interests of our State, to prosper in the interests of our State.

By His Excellency's command, THOMAS DAY, Secretary.

New-Hampshire Election. The Portsmouth Journal of Saturday contains returns of votes from 90 towns, which Mr. Upham had 10,733, and Mr. Harvey 12,487.

The Concord Register states that Mr. Harvey will be elected by a majority somewhat larger than that obtained last year by the present incumbent. The Council will stand the same as last year; and the strength of parties in the House will be numerically about the same.

From the Montreal Herald, Feb. 27. About six weeks ago, as a young Indian of the St. Regis tribe, named Lassar Marble, was amusing himself in the exercise of skating on the St. Regis River, about a mile above the village of that name, he incautiously slipped into an air hole. His cries soon attracted the attention of some Indians who were returning from Hogansburg, by a land road separated from the river by a wall thick with woods.

A Few days since a large TIPPET, who never will leave it at this office will be rewarded.

not hesitate, and plunged into the water perfectly undismayed by the awful prospect before him, of which he was cautioned by his then sinking nephew, in these words, 'Uncle, do not come after me; or you will perish with me.' He swam a few rods when he met a bar of ice that separated him from the air hole in which his nephew was—ho used all the strength he was master of, to break the ice with his arms, but finding it impracticable, he dived under it, a distance of about twenty four feet, and reached the side of his nephew who had already sunk below the surface—he caught him, and with one effort of Herculean strength, threw him on the ice, when with very little assistance, he might have been saved, but being quite benumbed, and probably insensible of his danger, he slid back into the water and was drowned.

The generous uncle, whose name deserves to be recorded, (Jean Baptist Terrence), was, by the exertion made in swinging his nephew on the ice, driven under it on the opposite side, and was seen floating down with the current by the persons above, a distance of about 10 feet from the air hole. In this most horrible of all imaginable situations, he had the presence of mind to endeavor to break the ice with his head, but was twice unsuccessful, when, in his own words, desperation impelled him to one more effort, (not, however, before he had taken a considerable quantity of water), he managed with the motion of his hands and feet to gain the bottom, and with one bold spring drove his head through the ice, where he would yet have perished had he not been rescued by those on the ice. I saw him six days after the occurrence, he appeared quite recovered, except the top of his head, which was dreadfully bruised."
